### Policy

This policy is designed to assist officers in identifying crimes motivated by bias toward an individual's race, religion, ethnicity, handicap, sexual orientation or gender and to define appropriate steps for assisting victims and apprehending suspects.

The key to a successful law enforcement response to bias crimes is building a partnership with victimized communities. There needs to be a relationship of trust and cooperation between the police and these communities. Citizens need to be encouraged to come forward whenever a hate crime occurs and to have confidence that the police will handle these matters with the seriousness and concern they deserve. Citizens need to look at the police as allies in the fight against hate violence.

It is the policy of the Yarmouth Police Department that:

1. All personnel are committed to safeguard the state and federal civil rights of all individuals irrespective of their race, religion, ethnicity, handicap, sexual orientation or gender;
2. Any acts or threats of violence, property damage, harassment, intimidation, or other crimes that are designed to infringe upon every person's civil rights will be treated seriously; and
3. Bias crimes are viewed very seriously and will be given high priority. The department will use every necessary resource rapidly and decisively to identify the

perpetrators, arrest and prosecute them, and take vigorous enforcement action.

## **Bias Indicators**

The following criteria can assist law enforcement officers in determining whether a particular crime should be classified as a bias crime. These criteria are not all-inclusive and each case must be examined on its own facts and circumstances.

Common sense judgment should also be applied in making the determination whether a crime should be classified as a bias crime.
